At A Glance

The stylish TE-1500 design and medium size metal cash drawer with slot lends itself to medium sized retail applications. The TE-1500's large three (3) alpha/numeric back-lit display accents the machine's design and software capability. Scanning and PC communications are available for more demanding applications along with integrated electronic payment (credit/debit/gift card). Simpler applications can use the 30 department keys or the 2,000 PLU numbers to record their sales.

Technical Specs

TE-1500 Technical Specifications

Input Method

Entry	10-key system, buffer memory 8 keys (2-key roll over)
Department	Full key system

Display

Main	Amount 10 digits (zero suppression); No. of repeats, total, change, transaction indicator Descriptor 16 digits x 2 lines; item descriptor, No. of items, mode, clerk name
