

# OMNIKEY® 2061 Bluetooth® Reader

## CONTACT LOG-ON READER ENABLES HANDS-FREE OPERATION AND AUTHENTICATION

- **Privacy Is Maintained** – Portable authentication device is ideal for individual log-on to personal computers where confidentiality is a concern
- **User Convenience** – Badge and reader allow freedom of movement with high-speed, secure log-on through Bluetooth® connection
- **Secure Design** – Providing both visual security and logical access security to a computer hands-free
- **Highly Secure** – 128-bit encryption of Bluetooth connection between reader and host

HID's OMNIKEY® 2061 Bluetooth reader is a portable authentication device for individual log-on to personal computers. It is ideal for organizations where frequented, but intermittent, use of personal computers is practiced and where information privacy is a priority.

OMNIKEY 2061 provides hands-free operation and authentication anywhere secure log-on to IT networks is desired. Additionally, the reader supports HID on the Desktop™ as part of a three-component solution, which includes an HID technology card,

reader and naviGO® software, enabling logical access in virtually any environment. Equally suited for mobile and laptop usage, the reader supports all relevant Windows® operating systems, ensuring worldwide compliance and easy integration in any system.
